Reviewer’s report

Title: Visually assessed severity of lumbar spinal canal stenosis is paradoxically associated with leg pain and objective walking ability

Version: 2 Date: 7 July 2014

Reviewer: Christy C Tomkins-Lane

Reviewer’s report:

Thank you for the revised version. All of my concerns have been adequately addressed.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
