Reviewer’s report

Title: Comparison of self-reported pain intensity, sleeping difficulty, and treatment outcomes of patients with myofascial temporomandibular disorders by age group: A prospective outcome study

Version: 3 Date: 8 September 2014

Reviewer: ANAK IAMAROON

Reviewer’s report:

Discretionary Revisions.

The authors should discuss in more detail why pain intensity associated with myofascial TMDs does not differ by age group and why older patients suffer greater sleeping difficulty than young patients.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
