Reviewer’s report

Title: The association between lean mass and bone mineral content in the high disease activity group of adult patients with juvenile idiopathic arthritis

Version: 2 Date: 5 February 2014

Reviewer: Harri Hamalaine

Reviewer’s report:

Major compulsory revisions have been now done and the manuscript has improved a lot.
Introduction is now sound as is materials and methods.
Results have become loud and clear with Tables 3, 4, 5 and Figure 1.
Discussion has also improved.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
