Reviewer’s report

Title: Total hip arthroplasty for Crowe IV hip without subtrochanteric shortening osteotomy - a long term follow up study -

Version: 3 Date: 17 November 2013

Reviewer: PANAGIOTIS KOULOUVARIS

Reviewer's report:

The authors have responded accurately to the reviewer’s comments. My real concern is that the sample is too small and not homogenous. How we can evaluate survival with 13 and 14 pts?

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
