Reviewer's report

**Title:** Reliability and validity of the Norwegian version of the Disabilities of the arm, shoulder and hand questionnaire in patients with shoulder impingement syndrome

**Version:** 2  
**Date:** 9 January 2014

**Reviewer:** Ali KITIS

**Reviewer's report:**

This manuscript does not in a level contributing any thing to musculoskeletal rehabilitation. If these manuscripts publish in their national journals, they will gain more valuable academic and scientific interest. Apparently, their scientific qualities related with subsequent studies in national level and I strongly offer this manuscript must assess in a national base.

**Level of interest:** An article of limited interest

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
