Reviewer's report

Title: Modeling of Failure Mode in Knee Ligaments Depending on the Strain Rate

Authors:
Mija Lee (milee@tamu.edu)
William A. Hyman (w-hyman@tamu.edu)

Version: 2 Date: 19 Dec 2001

Reviewer: Dr Dominique Pioletti

Level of interest: A paper whose findings are important to those with closely related research interests

Advice on publication: Accept after discretionary revisions

I think the authors did a good job and all my comments are addressed.

I have just several minor points:

- Ref 5: Journal of biomechanics -> Journal of Biomechanics
- Fig 3: definition for axis x is hidden
- Fig 4: idem
- Fig 8: idem
