Reviewer's report

Title: Complex Pediatric Elbow Injury: An Uncommon Case

Version: 2 Date: 28 February 2005

Reviewer: David Ring

Reviewer's report:

General

The focus and organization are improved. A bit more editing for organization and clarity are needed. I will leave that to the editors.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No

Declaration of competing interests:

I declare that I have no competing interests.
