Reviewer's report

Title: Pre-competition habits and injuries in Taekwondo athletes.

Version: 3 Date: 12 May 2005

Reviewer: Holger Schmitt

Reviewer's report:

General
The revisions are satisfactory. The study is described as a pilot study. The design is a retrospective survey with a low response rate. The limitations of the study are described. The scientific value is low, but the object of the study is interesting.

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
"Training and Injuries": due to a limited sample size is written twice in a sentence.

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
