Title: Does Alendronate Reduce the Risk of Fracture in Men? A Meta-analysis Incorporating Prior Knowledge of Anti-Fracture Efficacy in Women

Version: 2 Date: 1 February 2005

Reviewer: Ann Cranney

Reviewer's report:

General

I have reviewed and am satisfied with the changes made by the authors.

--------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

--------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

--------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
