Reviewer's report

Title: Piezoelectric osteotomy in hand surgery: First experiences with a new technique

Version: 4 Date: 13 January 2006

Reviewer: David Pichora

Reviewer's report:

General
I have reviewed the revised manuscript and find it to be much improved. From a medical / scientific perspective it is now satisfactory

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision
