Reviewer's report

Title: Comparison of AIMS2-SF, WOMAC, x-ray and a global physician assessment in order to approach quality of life of patients suffering from osteoarthritis.

Version: 2 Date: 1 November 2005

Reviewer: Agustin Escalante

Reviewer's report:

General
Authors have responded to the initial review. I have no additional comments.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
