Reviewer’s report

Title: A systematic review of the psychometric properties of the Boston Carpal Tunnel Questionnaire

Version: 2 Date: 12 September 2006

Reviewer: Joy Macdermid

Reviewer’s report:

General

Revision complies with all suggestions and is an excellent article

------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

------------------------------------------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes
