Reviewer's report

Title: Improving the Sensitivity of the Hop Index in Patients with an ACL Deficient Knee by Transforming the Hop Distance Scores

Version: 3 Date: 30 December 2005

Reviewer: Eva Ageberg

Reviewer's report:

General
The requested revisions are made, and the manuscript can be accepted for publication.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
I declare that I have no competing interest.
