Reviewer's report

Title: Testing the proficiency in distinguishing locations with elevated plantar pressure within professional groups of foot therapists.

Version: 3 Date: 31 August 2006

Reviewer: Margaret Wan Nar Wong

Reviewer's report:

General

The authors have addressed most of the questions raised by the three reviewers.

------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Reference list

------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes
