Reviewer's report

**Title:** Rheumatoid Arthritis Foot Trial (RheumAFooT): a pilot for a randomised controlled trial of podiatry care

**Version:** 2  **Date:** 16 October 2007

**Reviewer:** fay crawford

**Reviewer's report:**

General
The authors have revised this manuscript vigorously and it is clearly an important contribution to health services research methods as well as rheumatology and podiatry clinical practice. I no longer have any hesitation in recommending it for publication by BMC.

-----------------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-----------------------------------------------------------------------------------------------------------------------------------

**What next?:** Accept without revision

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
