Reviewer's report

Title: Adherence to physiotherapy clinical guideline acute ankle injury and determinants of adherence: a cohort study

Version: 2 Date: 16 April 2007

Reviewer: Jozé Braspenninck

Reviewer's report:

General

The authors have revised the manuscript according to my earlier remarks.

------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

------------------------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
