Reviewer's report

Title: The reliability of three-dimensional scapular attitudes in healthy people and people with shoulder impingement syndrome.

Version: 3 Date: 11 April 2007

Reviewer: Joseph B Myers

Reviewer's report:

General
I feel that all of my concerns were adequately addressed.

-----------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-----------------------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
