Reviewer’s report

Title: Subjective and objective outcome in congenital clubfoot; a comparative study of 204 children.

Version: 2 Date: 20 April 2007

Reviewer: Matthew B Dobbs

Reviewer’s report:

General
The authors have addressed the concerns I raised and the manuscript is much improved. I congratulate
the authors on a significant study that lays the groundwork for future work.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be
reached)

Discussion Page 14: section Does sex affect outcome? 2nd sentence: ".... girls may have a more severe
form...."

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author
can be trusted to correct)

What next?: Accept after minor essential revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
I declare that I have no competing interests.
