Reviewer’s report

Title: The clinimetric qualities of patient-assessed instruments for measuring chronic ankle instability: A systematic review.

Version: 3 Date: 17 November 2006

Reviewer: Cornelia Van den Ende

Reviewer’s report:

General
Authors responded in a satisfactory and convincing way to my comments.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
I declare that I have no competing interests.
