Reviewer's report

Title: Work-related musculoskeletal disorders among Nigerian Physiotherapists.

Version: 3 Date: 24 June 2008

Reviewer: Linda A Merlino

Reviewer's report:

The paper is much improved.

Minor Essential Revisions

pg 3 Background, paragraph 3

Some research indicate ... need to add an "s" to indicate so it is "indicates"

pg 4 Methods, paragraph 3

The word "dichotomous" should read "categorical"

pg 7 paragraph 2

line 1 - The paragraph should start with the word "The" (i.e., The majority of the...) and the word experience should have a "d" (i.e., experienced)

line 2 - add the word "the" at the end (i.e., This is similar to the findings of "the" majority)

line 4 - "that were below" 30 years of age should be "younger than" 30 years of age

line 8 - the word "of" should be eliminated (i.e., younger physiotherapists less than 30 years of age.)

line 10 - Nigerian should be Nigeria

paragraph 3

line 1 - delete the word "risk to" and change to "contributing to"

line 6 - the word period needs an "s" at the end to read periods

Page 8, paragraph 2

line 1 - add the word "the" to the end of the line (i.e., we found that "the" majority)

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published
Statistical review: No, the manuscript does not need to be seen by a statistician.
