Reviewer’s report

**Title:** Is a history of work-related low back injury associated with prevalent low back pain and depression in the general population?

**Version:** 2  **Date:** 30 November 2007

**Reviewer:** Jan Hartvigsen

**Reviewer’s report:**

The methodology used is sound, conclusions are supported by the data, and the paper is well reported. The authors have provided a revision according to the recommendations.

I still think that many of the findings are trivial, but since the paper is a solid piece of work, I recommend that you proceed to acceptance.

**What next?:** Accept without revision

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
