Reviewer’s report

Title: Comparison of two measures of physical work load in hospital personnel: A cross-sectional study

Version: 3 Date: 6 November 2007

Reviewer: Alex Burdorf

Reviewer’s report:

General

I was pleased with the changes made in response to my earlier remarks and have further comments.
[please note a small spelling error, introduced by my comment, extend should be extent]

---------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

---------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

---------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
