Reviewer's report

Title: Ten-year audit of Lichtenstein hernioplasty under local anaesthesia performed by surgical residents

Version: 1 Date: 22 March 2010

Reviewer: Patrick J O'Dwyer

Reviewer's report:

I have reviewed the above manuscript and have the following comments:
It is well written and worthy of publication.
The findings are important as they illustrate the short learning curve associated with open mesh repair for inguinal hernia.
