Title: Accept or refuse? Factors influencing the decision-making of transplant surgeons who are offered a pancreas: results of a qualitative study

Version: 2 Date: 2 August 2013

Reviewer: Helmut Arbogast

Reviewer's report:

since I am still not content with the paper indicated below, and almost none of the changes proposed have been performed, I would vote for rejection of the paper. It is too lengthy written to catch the interest of surgical colleagues and - although I consider the topic as important - it is very specifically interesting for Germany and does most likely not represent problems in the Anglo-American community.

But since I know the authors too well, I would not like to be identified with my comments.
