Reviewer’s report

Title: Use of human Fibrin Glue (Tisseel) versus Staples for Mesh Fixation in laparoscopic transabdominal preperitoneal Hernioplasty (TISTA) - A randomized controlled Trial (NCT01641718)

Version: 1 Date: 3 December 2013

Reviewer: Virinder Bansal

Reviewer’s report:

The authors have adequately addressed the issues raised in the previous review and paper is acceptable

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
