Reviewer's report

Title: Extrathoracic Solitary Fibrous Tumor of soft tissues: clinicopathological findings in nine cases

Version: 3 Date: 11 May 2006

Reviewer: Giuseppe Cardillo

Reviewer's report:

General

------------------------------------------------------------------------------------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
Please, change the beginning of Discussion with an other sentence on the SFT.
Discuss a little be more the role of radiotherapy
Discuss the role, if any, of PET scan
LOng-term follow-up is very important for SFT: in some cases 10-years could not be enough.

------------------------------------------------------------------------------------------------------------------------
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

------------------------------------------------------------------------------------------------------------------------
Discretionary Revisions (which the author can choose to ignore)

What next?: Unable to decide on acceptance or rejection until the authors have responded to the major compulsory revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No
