Title: Comparison of Inpatient vs. Outpatient Anterior Cervical Discectomy and Fusion: A Retrospective Case Series

Version: 1 Date: 25 November 2008

Reviewer: Wilco C. Peul

Reviewer’s report:

Dear Editor

I read with pleasure the submitted report. It is clearly written and contains an important message with concern to outpatient surgery.

The discussion is bit too long and should be shortened. The authors repeat themselves with regard to the advantages of outpatient surgery.

Best regards

Wilco C. Peul
