Reviewer's report

Title: A 6-month depot formulation of leuprolide acetate is safe and effective in daily clinical practice: a non-interventional prospective study in 1273 patients

Version: 1 Date: 27 April 2011

Reviewer: Jose Najera

Reviewer's report:

Discretionary revision:
- Might be useful to include if any of the patients on the 6 month Leuprolide formulation were receiving any additional treatment, like Bicalutamide. And if any systemic allergic reactions to this formulation were present and what percentage.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
