Reviewer's report

Title: Renal cell carcinoma with a tumor thrombus in the ureter; a case report.

Version: 1 Date: 25 March 2011

Reviewer: Adam Metwalli

Reviewer's report:

Very interesting case report. There is a typographical error it appears on page 4, 3rd line from the bottom the sentence which starts "On investigation, ofble 1 ...". The only other critique is that the discussion is very very long and wide-ranging for a case report. I would delete much of the first several paragraphs that provide background on the differences between RCC and UTTCC. The last part of the discussion is interesting from the bottom of page 9 through page 11 and this portion is probably sufficient for the entire discussion.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
