Reviewer's report

Title: Caveolin 1 protein expression in renal cell carcinoma predicts survival

Version: 3 Date: 19 October 2011

Reviewer: Peter Schraml

Reviewer's report:

Minor Essential Revisions:
2 images of Caveolin staining should be added to support the author's findings: one cytoplasmic positive and one membranous positive ccRCC together with endothelial or non-neoplastic positively stained cells.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
'I declare that I have no competing interests'
