Reviewer’s report

**Title:** Impact of Seminal Trace elements and Glutathione levels on Semen Quality of Tunisian Infertile Men

**Version:** 1  **Date:** 16 December 2011

**Reviewer:** Fanuel Lampiao

**Reviewer’s report:**

This is a good manuscript, however minor essential revisions should be made.

**Introduction**

line 3: impaired or unpaired?

page 4, last paragraph, first sentence: compromising or comprising?

page 4, last paragraph: the second sentence should be written in correct grammar. "responsible of" should be changed to "responsible for".

page 5 last paragraph, first sentence does not read well. Did the authors mean the "no study in Tunisia has investigated...........?"

**Statistics**

Group comparisons were made using the Student’s t-test, but there are more than 2 groups which were compared. why did the author not use ANOVA?

**Conclusion**

line 4, spelling of pathozoospermic.

**Level of interest:** An article of importance in its field

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** Yes, but I do not feel adequately qualified to assess the statistics.
