Reviewer's report

Title: Single-port laparoscopic adrenalectomy: initial experience

Version: 2 Date: 4 March 2013

Reviewer: Francesco Bottone

Reviewer's report:

Discretionary Revision

I would like to suggest you a larger conclusion.
It should comprehend that the assistance of the needlescopic instrument does not compromise the cosmetic outcomes.
You can suggest that patients with body mass indexes greater than 27 kg/m2 are partially (maybe totally) contraindicated.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
