Reviewer's report

Title: Health economics perspective of newly treating overactive bladder syndrome with fesoterodine, tolterodine or solifenacin in primary medical practice in Spain

Version: 1 Date: 1 September 2013

Reviewer: Jian Gong

Reviewer's report:

Major Revisions#
1. How the patients were selected? Please give the details of the sampling. Why choose the three geographical areas? Why choose the two autonomous regions?
2. How do you control the effect of the co-morbidities to the results? Please give the details in the “method” and discuss the details.
3. I am confused with the Figure 2.

Minor Revision:
Throughout the manuscript there are issues with correct word use. This submission needs to be reviewed by an individual who is a native English speaker.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
