Reviewer's report

Title: Urological research in sub-Saharan Africa: a retrospective cohort study of abstracts presented at the Nigerian Association of Urological Surgeons Conferences

Version: 2  Date: 31 October 2013

Reviewer: Marco De Sio

Reviewer's report:

No major compulsory revision. The Paper is certainly well written but the level of interest is limited mostly to African Urologist. Any effort should anyway be done to increase scientific level of the abstracts presented in any country to warrant subsequent publication in peer reviewed journals.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
