Reviewer's report

Title: An unusual delayed complication of paraffin self-injection for penile girth augmentation

Version: 1 Date: 9 November 2013

Reviewer: Salvatore Micali

Reviewer's report:

Minor essential revisions. It's a large interest field, nice case report. Good and comprehensive language. Probably I would use some pictures, a tabal of results of uroflussimetry and residual post mintional pre- and post-treatment

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
