Reviewer's report

Title: Relationships between perioperative physical activity and urinary incontinence after radical prostatectomy: an observational study

Version: 1 Date: 5 November 2013

Reviewer: Manuela Ingrosso

Reviewer's report:

discretionary revisions:
can you describe in more detail the PFM training program that patients carried?

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:

I declare that I have no competing interests
