Reviewer’s report

Title: Approach via a small retroperitoneal anterior subcostal incision in the supine position for gasless laparoendoscopic single-port radical nephrectomy: initial experience of 42 patients

Version: 2 Date: 9 January 2014

Reviewer: Marco Rosa

Reviewer’s report:

Authors performed a good article about this new approach of laparoscopic procedure. Research group proposes a very skilled topic. I think paper is acceptable for publication on BMC Urology.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
