Reviewer’s report

Title: Bladder irrigation and urothelium disruption: a reminder apropos of a case of fatal fluid absorption.

Version: 4 Date: 17 October 2014

Reviewer: Richard W Norman

Reviewer’s report:

Previous issues have been addressed except for the amount of blood in the bladder eg small clot, large number of clots, etc.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
