Title: Expression of parathyroid hormone/parathyroid hormone-related peptide receptor 1 in normal and diseased bladder detrusor muscles: A clinico-pathological study

Version: 2 Date: 24 October 2014

Reviewer: Valerio Iacovelli

Reviewer's report:

The Authors address an important and not-well studied topic, expression of parathyroid hormone/1 parathyroid hormone-related peptide receptor in normal and diseased bladder detrusor muscles. They report on 13 patients who underwent bladder augmentation. The manuscript is punctual and clear. Small number of cases due to the type of study (clinico-pathological study). Case-control ratio not specified.

Major Revisions: none.

Minor Revisions: none.

Discretionary Revisions:

Specify:
How many normal control bladder specimens did you collect? which is the ratio disease vs normal?

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
