Reviewer’s report

Title: New chemolysis for phosphate calculi ----an study in vitro

Version: 2 Date: 23 March 2005

Reviewer: William Robertson

Reviewer’s report:

General
The authors have answered most of the points that I made.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No
