Reviewer’s report

Title: Epidemiology of complications of male circumcision in Ibadan, Nigeria

Version: 1 Date: 7 June 2006

Reviewer: Elmar Gerharz

Reviewer’s report:

General
see above (confidential comments to the editor)

------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Drastic shortening of the abstract. Revision of the language/style

------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No
