Reviewer's report

Title: Adenocarcinoma of the Caecum Metastatic to the Bladder: An Unusual Cause of Haematuria.

Version: 2 Date: 25 September 2006

Reviewer: Wade sexton

Reviewer's report:

General
I have no other questions. The authors have addressed the questions and concerns in a satisfactory manner.

-----------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-----------------------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
