Reviewer’s report

Title: Pain during ice water test distinguishes clinical bladder hypersensitivity from overactivity disorders

Version: 4 Date: 15 December 2006

Reviewer: Mary P P. FitzGerald

Reviewer’s report:

General
Thank you for the opportunity to see this paper again. The revisions have greatly contributed to its clarity, and I recommend publication.

----------------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

----------------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

----------------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
