Reviewer's report

Title: In vivo MRI volumetric measurement of prostate regression and growth in mice

Version: 2 Date: 6 June 2007

Reviewer: John Waterton

Reviewer's report:

General

The reviewer would like to state that some parts of his original review appear to have been garbled and in particular two equations were lost (in comments major-6 and discretionary-5).

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
none

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
There are some spelling errors (testicle) and incorrect/inconsistent capitalisation (C57Bl6, Isoflurane, etc)

Discretionary Revisions (which the author can choose to ignore)
none

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
