Reviewer's report

Title: The Trends in Prostate Specific Antigen Usage Amongst United Kingdom Urologists, a Questionnaire Based Study.

Version: 4 Date: 29 September 2008

Reviewer: Laurent Chauveinc

Reviewer's report:

This paper is now acceptable for publication.
Two discretionary revisions
Personally, I should have written the Tyrol paragraph in the discussion.
Could you explain GP in the first utilization?

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
