Reviewer's report

Title: Toll-Like receptor 2 activation and comedogenesis: implications for the pathogenesis of acne

Version: 1 Date: 27 March 2013

Reviewer: Ichiro Kurokawa

Reviewer's report:

Minor Essential Revisions

It is an interesting paper.

1. TLR2 immunostaining is not convincing (Fig.1B). The authors should show typical infundibulum and sebaceous gland.

2. Fig.4B: P. aeruginosa and LTA are right.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
