Version: 1 Date: 25 Nov 2002

Reviewer: Dr Mahreen Ameen

Level of interest: A paper of considerable general medical or scientific interest

Advice on publication: Accept without revision

Compulsory revisions

This is a well-written report and I only noted a couple of grammatical/spelling errors.

1. Page 3, third paragraph
   .......may be beneficial in (of) sarcoidosis...
2. Page 6, 1st paragraph, correct spelling is 'dermabrasion.'
