Reviewer's report

Title: Solvent effects in permeation assessed in vivo by skin surface biopsy

Version: 3 Date: 11 December 2003

Reviewer: Gintautas Korinth

Reviewer's report:

To “Results and Table 1-2”:

- The abbreviation “octan/PG” (see table 1 and 2) should be used uniformly as “oct/PG” in the article.

- To document how many experiments were performed the authors should specify the number of experiments, e.g. add in “fig1BMC” on the y-axis to “a*” (n=??) and in “fig3BMC” to the y-axis for “b*” (n=??).
