Reviewer's report

Title: Topically applied vitamin C increases the density of dermal papillae in aged human skin

Version: 5 Date: 30 August 2004

Reviewer: salvador gonzalez

Reviewer's report:

General
The manuscript has improved considerably and all concerns have been properly clarified by the authors

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
None
