Reviewer's report

Title: An evaluation of UV protection imparted by cotton fabrics dyed with natural colorants.

Version: 2 Date: 12 October 2004

Reviewer: Julian Mitchell Menter

Reviewer's report:

General
The manuscript is much better. One can see from the added figures the basis for the observed UPF values. These figures should have captions.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)
